SOURCE [REDACTED]

1.a. A Polish ration supply depot was under construction near OSWIECIM (4 51/Y 74) in August 1949. The information that the installation was to be used as ration supply depot was secured from Polish officers.

b. The fenced-in depot area was about 650 feet square. The depot bordered on the northwestern perimeter of the former OSWIECIM (AUSCHWITZ) concentration camp. It was connected with the OSWIECIM railroad station by a spur track.

2. The depot was composed of an angular brick building (about 330 x 400 feet) with several annex buildings. The building had a basement, first floor and garret-story. A loading ramp was being constructed at the building.

3. No supplies were stored there at the time of observation.

4. The construction work was supervised by Militia officer SZYMANSKI who wore civilian clothes. About 20 soldiers from KRAKOW (4 51/Z 24) were quartered in the depot area.

Comment:

The report does not clearly indicate whether the OSWIECIM ration supply depot belongs to the Polish Army. It may be assigned to the Militia as the construction work was supervised by a Militia officer.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1973 from the Director of Central Intelligence to the Archivist of the United States.
